SUBJECT G128-2D DC GENERATORS

FEB 5 02 40 '63

25X1A

1. [REDACTED] WAS ADVISED RECENTLY BY [REDACTED] THAT A CLOSER
QUALITY CONTROL SYSTEM WAS IMPLEMENTED BY [REDACTED] TO POSSIBLY
IMPROVE THE PERFORMANCE OF THE G128-2D GENERATOR. THIS IMPROVED
QUALITY CONTROL CONSIST OF USING A DIFFERENT LUBRICATION AND
REPLACING OF BEARINGS.

25X1A

25X1A

2. AFTER RECENT FAILURES IN THE FIELD IT WAS DISCOVERED THAT
THE IMPROVED VERSION OF THE GENERATOR IS IN STOCK UNDER THE SAME
PART NUMBER AS THE OLD VERSION. IN ADDITION, THERE WERE NO
MARKINGS ON THE OUTSIDE SHIPPING CONTAINER TO DISTINGUISH THE
NEW VERSION FROM THE OLD VERSION. THE ONLY METHOD AVAILABLE TO
DISTINGUISH THE TWO VERSIONS IS TO OPEN EACH CONTAINER AND CHECK
FOR THE PIE SHAPE CUT IN THE DECAL. THIS METHOD IS NOT PRACTICAL
SINCE MATERIAL IS RECEIVED AND SHIPPED 24 HOURS A DAY SEVEN DAYS
A WEEK BY PART NUMBER.

3. REQUEST YOU PLACE THE SAME IDENTIFICATION ON OUTSIDE OF
CONTAINER AS YOU PLACED ON THE ITEMS ITSELF. THIS WILL ELIMINATE
THE NECESSITY OF OPENING THE CONTAINER. ALSO, THE DEPOT SHOULD
BE ADVISED IN ADVANCE OF SPECIAL MARKINGS AND THEIR MEANINGS.

DATE THIS MSG 1 FEB 63.
